

Berrien Conservation District presents:

Precision Farming From Start to Finish

An "On-Farm" Field day
showcasing the latest in Precision
Agriculture including:
Nutrient Management & Technology
Minimum Tillage Systems - Strip-till/No-till
Also included: MAEAP Phase I Mtg.

What can precision farming do for me?

- Improve crop yield
- Provide information to make better management decisions
- Optimize chemical and fertilizer applications
 - Reduce pollution
 - Increase profit margin

RUP & CCA
Credits Pending

Tuesday, July 27, 2010 from 5 - 9 PM
